**BEHAVIOR:**  
Compliance with medication is good. His self care skills are intact and unimpaired. His domestic skills are intact and unimpaired. His relationships with family and friends are normal. He is performing normally at work. There are early signs of substance abuse problems. His school performance is marginal. Some angry outbursts are occurring. Impulsive behaviors are being displayed less frequently. David has normal food and fluid intake. David has not been confused.

David appears irritable, glum, attentive, communicative, casually groomed, normal weight, and tense, and appears anxious. He exhibits speech that is normal in rate, volume, and articulation and is coherent and spontaneous. Language skills are intact. Demeanor is glum. He appears downcast. There are no apparent signs of hallucinations, delusions, bizarre behaviors, or other indicators of psychotic process. Associations are intact, thinking is logical, and thought content appears appropriate. Suicidal ideas are convincingly denied.

Plan: Continue to accommodate client to the best of shelter abilities and continue to prompt client to continue participating in programming plans now being implemented by shelter staff.
